14. Citizen of New Zealand refers to New Zealand citizen connected with New Zealand, Niue, Tokelau and national of Cook Islands.
15. Citizen of Tonga refers to Tongan citizen connected with Kingdom of Tonga except Tongan Protected Person.
16. Methodology of the Travel Freedom Index Calculation
 - I Total number of countries & territories that allow visa free access
 - II Total number of countries & territories that allow visa on arrival access
 - III Total number of countries & territories that allow electronic authorisation prior to arrival
 - IV Total number of countries & territories that refused entry
 - V Total number of countries & territories that allow visa free, visa on arrival and electronic authorisation access minus number of countries and territories that refused entry
- TFI The Index of 1000 is based on the assumption of a citizen able to visit all 257 countries and territories without having a visa, while the Index of -1000 refers to a citizen who would be refused entry to all 257 countries and territories. Each visa on arrival access is counted two-third, electronic authorisation counted one-third of each visa free access, while visa prior to arrival would not be counted based on the 257 countries and territories to 1000 Index scale.
